## Step One: Controlling all Aspects of Your Hay Harvest.

This one's obvious. You have to cut the hay before anything else happens, right? And you want to make sure you've got the tool that's going to make sure you get every inch of ground covered. Call it the waste-not-want-not approach to harvesting. The Yanmar Model YMDM50 Drum Disc Mower could well be the sharpest blade in the tool shed, and perfect for tractors under 30 HP.
